Joaquin was delighted that a Parzinger console from 1stDibs fit perfectly in her master bedroom, above. Adam P. Gale, an artist who often uses reclaimed metal, made the bronze turtle shell and the curtain rod.

In the kitchen, she kept the original cooking range, a gleaming steel battle ers, and grills. “I cook only about three times a week, so the best thing was a Viking refrigerator met her standards because it uses less plastic, meaning than competitors. In went an Asko dishwasher, a water and energy miser, an kitchen sink to save “amazing” amounts of water. Most of the cabinets are sustainable by the Forest Stewardship Council, as is the rest of the house. Eco Cem, a granite replacement made of Portland cement and recycled new
